

Supplementary Materials

1.1 Supplementary Figure 1

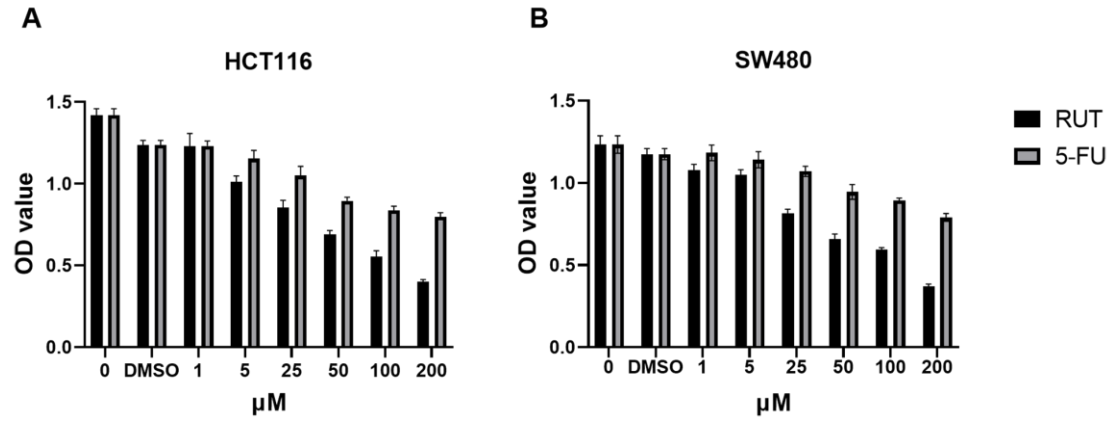

Fig. S1. The effects of RUT and 5-FU on colorectal cancer cell lines (HCT116 and SW480).

1.2 Supplementary Figure 2

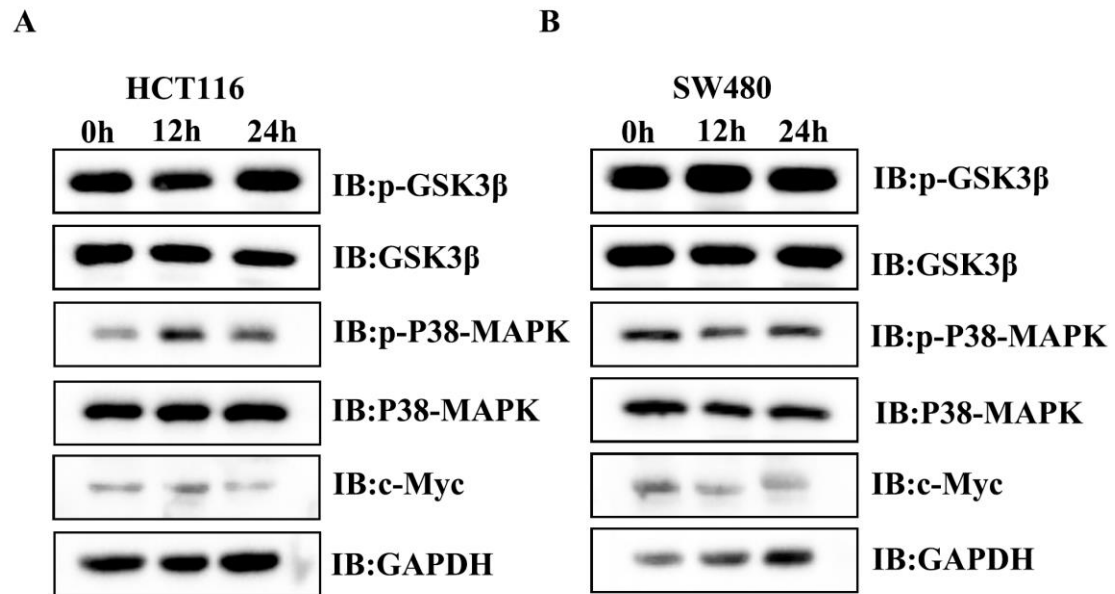

Fig. S2. The difference of protein expression in CRC cells (HCT116 and SW480) with or without RUT treatment.

(A-B) The level of phosphorylated GSK-3 β , P38 and the protein levels of c-Myc in HCT116 (A) and SW480 (B) cells after RUT (5 μ M) treatment for 0h, 12h and 24 h.
