Supplementary Fig. 1 The results of more three samples of plasminogen (A), plasmin (B), MMP-12 (C) and angiostatin (D). TA: tranexamic acid, MMP: matrix metalloproteinase.

14

15 **Supplementary Fig. 2** Western blot diagram of plasminogen (A), plasmin (B) and
 16 angiostatin (C) with molecular weight markers. All lanes were flowed tumor cell extraction
 17 samples.
